

# Gallery Wall: Three Tips to Nail the Look

Center Line Method

Central Anchor Method

## 1. Start with Your Largest Piece

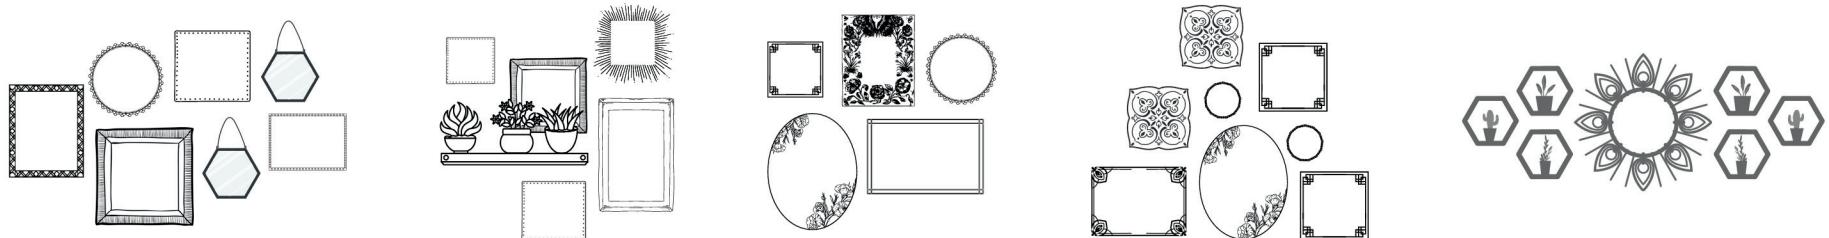

Place your biggest frame & center the whole arrangement at 57-60" from the floor.

## 2. Keep Spacing Even

Leave 2-3" of space between each frame for a clean, polished look.

## 3. Mix, Match & Ground It

Use different sizes, colors, and textures, but keep heavier pieces lower to balance the wall.

Layout examples showing varying sizes, shapes, textures & symmetry.
